Quantum Healing Codes

& How to Use Them

Divine healing codes are a quantum tool used for healing. In other words, they change reality on a quantum level. The basic premise of divine healing codes is that numbers are nature's way of communicating and that everything can be explained with numbers. For example, the Fibonacci sequence of numbers is a geometrical proportion that is found everywhere in nature, from how flowers grow to the shape of the universe.

The order goes as follows: **1, 1, 2, 3, 5, 8, 13, 21, 34, 55, 89, 144** and on to infinity. Each number is the sum of the previous two. This series of numbers is known as the Fibonacci numbers or the Fibonacci sequence. The ratio between the numbers (1.618034) is frequently called the golden ratio or golden number. And, this sequence appears in nature often enough to prove that it reflects some naturally occurring patterns.

If you were to look at the seeds in the center of a sunflower, you would see what appears as spiral patterns curving left and right. And if you were to count these spirals, your total will always be a Fibonacci number. You can also decipher spiral patterns that reflect the Fibonacci sequence in pinecones, fruits and vegetables such as pineapples and cauliflower, trees, sea life, within honeybee colonies and even in humans.

If you were to look at yourself in the mirror, you would see that most of your body parts follow the numbers one, two, three and five. One nose, two eyes, three segments to each limb, five fingers and toes. The proportions and measurements of the human body can also be divided up in terms of the golden ratio. And DNA molecules follow this sequence, measuring 34 angstroms long and 21 angstroms wide for each full cycle of the double helix.

This ratio exists because the particular growth patterns associated evolved as the most effective. For example, in plants it may mean maximum exposure for light or maximum space for seed arrangement. So, you may see how nature has perfectly designed itself. And if we were to tap into these quantum healing codes and use them to our advantage, how we may also be able to perfectly design our bodies and mental states. Although we understand communication through words, numbers, mathematics and formulas have existed since the beginning of time, and they will keep existing whether we understand them or not. Let's look at how these quantum healing codes are said to work.

There are three really simple ways to use them:

1. Writing it on the part of the body that has discomfort or writing it on a sticker and placing that sticker on the body where there is discomfort.
2. Writing it in the air over the part of the body that has discomfort
3. Typing out the number on your phone or tablet and then holding that device over the body part

It is also said that you set an intention for your quantum code and then add that in the ways just listed to your food or water before consuming them. How much practice, desire, intent, and trust you hold will make the difference in the healing you receive. When use this practice, you balance the energy in your body so it can achieve self-healing.

This is energy healing, much like Reiki. If you are experienced with energy healing, this could be a great alternative or addition to the practices you already use. **These codes are not intended to diagnose, treat, cure, or prevent any disease. If you are under a doctor's care or feel as though you need to be under a doctor's care, please seek the advice of that doctor before attempting to replace any treatment.**

Please remember the spaces in the number sequences as they are important. Without them the codes won't work but it would lead to far to explain it here. Be careful to write the number codes correctly.
